Investment advisory and financial planning services offered through Simplicity Wealth, LLC, a SEC Registered Investment Advisor. Subadvisory services are provided by Advisory Alpha, LLC, a SEC Registered Investment Advisor. Insurance, Consulting and Education services offered through Financial Security Management Agency. Financial Security Management Agency is a separate and unaffiliated entity from Simplicity Wealth, LLC and Advisory Alpha, LLC.

© Advisory Alpha. Registration with the SEC or state does not constitute an endorsement of the firm by regulators, nor does it indicate that the adviser has attained a particular level of skill or ability. This content is for informational purposes only and does not intend to make an offer or solicitation for sale or purchase of any securities. Investing involves risk, including the potential loss of principal. No investment strategy, such as asset allocation or diversification, can guarantee a profit or protect against loss in periods of declining values. All investment strategies involve risk and have the potential for profit or loss. Changes in investment strategies, contributions or withdrawals, and economic conditions may materially affect the performance of your portfolio. There are no assurances that a portfolio will match or outperform any particular benchmark. Investors should carefully consider the investment objectives, risks, fees and expenses before investing. Any financial services firms referenced in this material do not provide tax or legal advice. Please consult with your tax or legal professional regarding specific issues prior to making a tax or legal decision. Other risks include those associated with asset classes, concentration, currency, sectors, financial products, liquidity, management, economic, and market trading. The strategies mentioned in this material are not based on your individual needs, goals, and risk. Prior to opening an account with our firm, your financial advisor will consult with you to determine if your financial objectives are appropriate for investing in the recommended investment strategies. The four Quadrant Plan components are generic classifications and are not intended to be specific to the purpose or objective of every investment. The term Protected does not imply the associated investments are risk-free. The Protected quadrant is the name of the quadrant that best represents the model portfolio described and does not necessarily infer that investments therein are guaranteed. All investments will fluctuate in value and could result in the loss of principal. All investments have risk of loss. Certain annuities, such as fixed and fixed indexed annuities may offer guarantees which are backed by the financial strength and claims-paying ability of the issuing insurance company. Market-Linked CDs (MLCDs) are a type of structured products. FDIC coverage generally applies to the amount of invested principal only. Any appreciation relating to the linked index or benchmark is not FDIC-insured. If you hold more than the FDIC-insured limitations in deposits with the issuing bank, you will not receive the benefit of FDIC insurance for any balance in excess of FDIC limits. In this instance, amounts in excess of FDIC-insured limits are subject to the credit risk of the issuing bank. For more information please visit www.fdic.gov.
